SETTING THE STAGE

It was just over a year ago that Sault College published its 2013-2014 annual report. The report outlined the college's mission, vision, and values, and highlighted its commitment to providing quality education and training to students from across the region. The report also emphasized the college's focus on experiential learning, community engagement, and sustainable development.

The vision

Sault College's vision is to be a leader in post-secondary education and training, providing accessible, high-quality programs that prepare students for success in their chosen fields. The college aims to create a positive learning environment that fosters creativity, critical thinking, and personal growth. It also seeks to promote social responsibility and environmental stewardship, and to engage with the local community through partnerships and outreach programs.
